

babyname month 25

MONTH 25

“Watch out, i’m becoming more independent”

When other children are around I get excited

I COPY OTHERS,
especially adults
and older children

Each day I show more and more independence

Which means I show defiant behavior
(doing what you’ve told me not to)

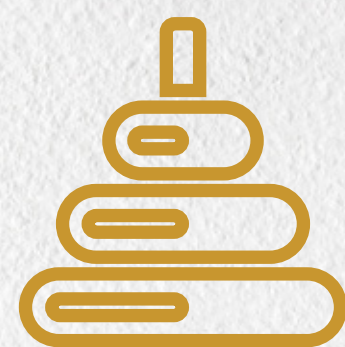

I like to play mainly beside other children, but I am beginning to include other children, such as in chase games

I complete sentences and rhymes in familiar books

Even when hidden under 2 or 3 covers I can find my toys

My block towers are getting taller I can build with 4 or more

Let’s have fun and play simple make-believe games

Playtime means a chance to sort shapes and colors

babyname month 25

MONTH 25

I may recognize a few things or pictures when they are named

I know the names of some familiar people

I can speak now in sentences

Its easy for me to follow simple instructions

I can run now even in circles

I can throw a ball at you and can catch when you throw

I can use the stairs on my own now
